Systembeschrieb

Description du système

System description

Elegant und leicht wirkende Brand-schutz-Türen und -Verglasungen EI60 mit dem System Janisol 3

Die auf der Basis des bewährten Janisol 2 Profilsystems weiterent-wickelte Serie für den Brandschutzbereich weist eine Bauhöhe von nur 60 mm auf. Dank hochwertiger Isolierstege sowie mechanisch hinterschnittenem Verbund wird eine hervor-ragende Stabilität der Profile erreicht. Die schmalen Ansichtsbreiten der Rahmen-, Pfosten- und Riegelprofile ermöglichen die elegante Gestaltung filigraner EI60-Glaswänden und -Türen.

Das umfassende Sortiment an verarbeitungsfertigen Profilen, der problemlose Stabzuschnitt, die einfachen und rationellen Schlossaus-nehmungen sowie die gute Schweiß-barkeit garantieren eine sichere Verarbeitung.

Vom optischen Erscheinungsbild her sind die Janisol 3-Profile (EI60) mit den Janisol 2-Profilen (EI30) deckungsgleich.

Des portes à l'aspect élégant et léger et des vitrages pare-flammes EI60 avec le système Janisol 3

La série développée pour la protection anti-feu sur la base du système de profilés Janisol 2 présente une hauteur de construction de seulement 60 mm. Une résistance exceptionnelle des profilés est atteinte grâce à des barrières isolantes de qualité supé-rieure ainsi qu'à une liaison méca-niquement contre-dépouillée. Les largeurs visibles étroites des profilés de cadre, de montants et traverses permettent l'agencement élégant de parois vitrées filigranes EI60 et de portes.

La vaste gamme de profilés prêts à être mis en œuvre, la découpe des barres sans problèmes, les évide-ments de serrure simples et rationnels ainsi que la bonne aptitude au soudage sont garants d'une finition sûre.

L'apparence visuelle des profilés Janisol 3 (EI60) correspond à celle des profilés Janisol 2 (EI30).

Janisol 3 EI60 (F60/T60)

Janisol 3 EI60 (F60/T60)

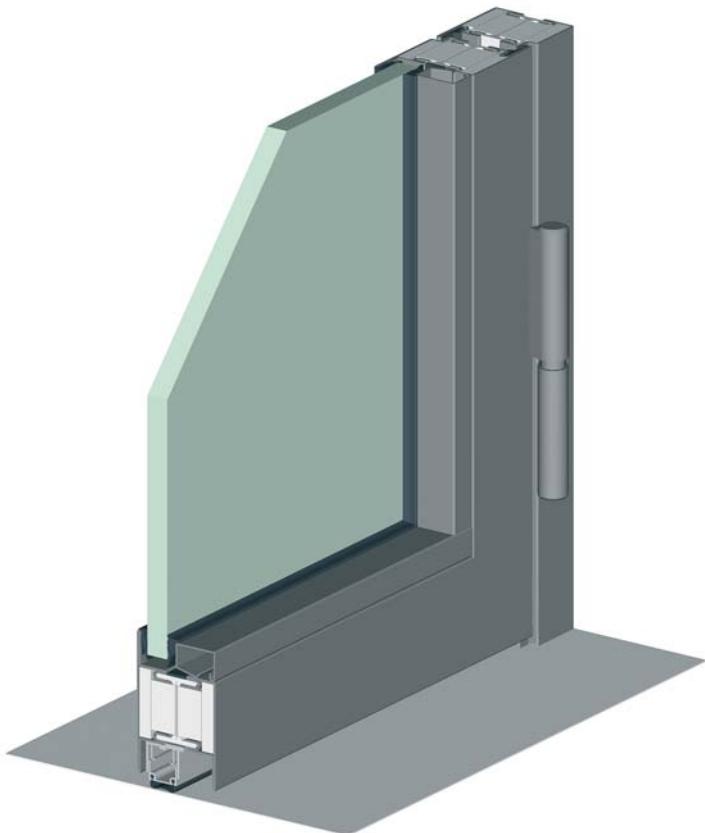

Janisol 3 EI60 (F60/T60)

Fire-resistant doors and fixed lights with an elegant light-weight appearance with Janisol 3 EI60 system

This advanced series designed for fire-resistant applications is based on the tried and tested Janisol 2 profile system, and has an section height of only 60 mm. Profile stability is excellent, thanks to the high quality insulating cores and mechanically undercut bond. The narrow visible width of profiles for frames, mullions and transoms enables the construction of elegant filigree-fine EI60 glazed walls and doors.

Safe and sure processing is guaran-teed thanks to our comprehensive assortment of process-ready profiles, trouble-free section-cutting, easy and efficient lock-recessing, and excellent welding properties.

In appearance, Janisol 3 profiles (EI60) are identical with Janisol 2 profiles (EI30).

Wir verfügen über Zulassungen von verschiedenen Konstruktionen in weiteren europäischen Ländern.

Nous disposons d'autorisations relatives à diverses constructions dans de nombreux pays européens.

Authorisations for various constructions in further European countries are available.

Merkmale

Caractéristiques

Features

Fluchttür-Systeme

In der EU gelten einheitliche Normen und Richtlinien für die Ausstattung von Fluchttüren. Ihr wesentliches Merkmal ist die gemeinsame Prüfung von Schloss, Schliessblech und Be-schlagszubehör. Sowohl Notausgänge als auch Paniktüren dürfen nur noch mit als komplette Einheit geprüften Verschlussystemen bestückt werden. Unsere Panikbeschläge erfüllen die beiden Fluchttürnormen EN 179 für Notausgangsverschlüsse und EN 1125 für Paniktürverschlüsse.

Systèmes de portes de secours

Dans l'UE, des normes et des directives unitaires s'appliquent en matière d'équipement des portes de secours. Leur caractéristique principale est un essai commun de la serrure, de la gâche et des accessoires de montage. Les sorties de secours comme les portes panique ne peuvent plus être équipées que de systèmes de fermeture testés en tant qu'unité complète. Nos ferrures panique répondent aux deux normes concernant les portes de secours: EN 179 pour les fermetures des sorties de secours et EN 1125 pour les fermetures des portes panique.

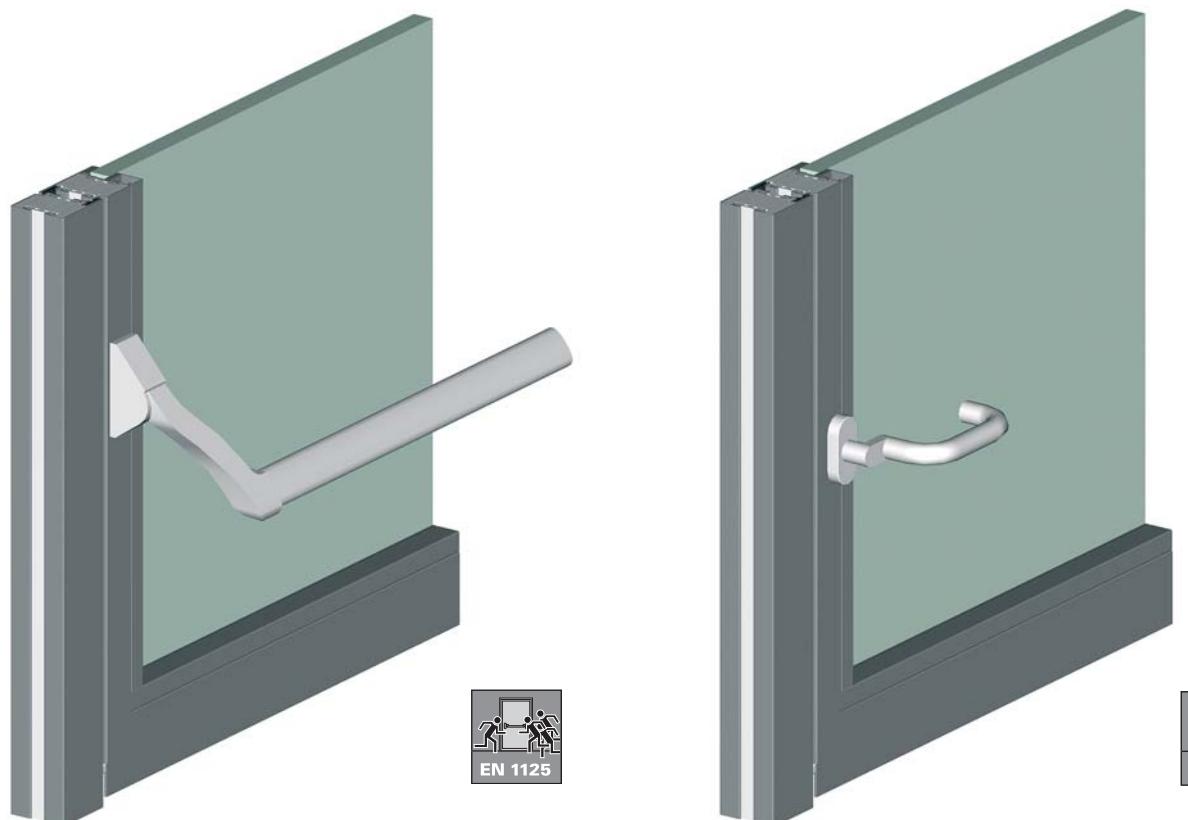

Janisol 3 EI60 (F60/T60)

Janisol 3 EI60 (F60/T60)

Janisol 3 EI60 (F60/T60)

Emergency exit systems

Emergency door fittings are regulated by a uniform set of standards and guidelines throughout the EU. The main feature of these standards is the combined testing of lock, strike plate and fittings accessories. Emergency exits and panic doors may only be fitted with lock systems that have been tested as a complete unit. Our panic fittings conform to both emergency door standards EN 179 for emergency exit locks and EN 1125 for panic door locks.

Features**Janisol 3 EI60 (F60/T60)**
Janisol 3 EI60 (F60/T60)
Janisol 3 EI60 (F60/T60)**Trockenverglasung**

Die Trockenverglasung mit Dichtungsprofilen gewährleistet innen und aussen optisch schmale und gleichmässige Fugen. Eine einfache und wirtschaftliche Montage ist gewährleistet. Widerhaken im Dichtungsfuss sichern beidseitig gegen Herausrutschen.

Vitrage à sec

Le vitrage à sec avec profilés d'étanchéité garantit à l'intérieur comme à l'extérieur des joints fins et réguliers. Il garantit un montage à la fois simple et économique. Les barbes à l'intérieur et à l'extérieur de la semelle d'étanchéité empêchent tout glissement.

Dry glazing

Dry glazing with gasket profiles ensures narrow and even internal and external joints, and is simple and economical to install. Barbed hooks on both sides of the gasket leg prevent it from falling out.

Winkelkontur-Glasleisten

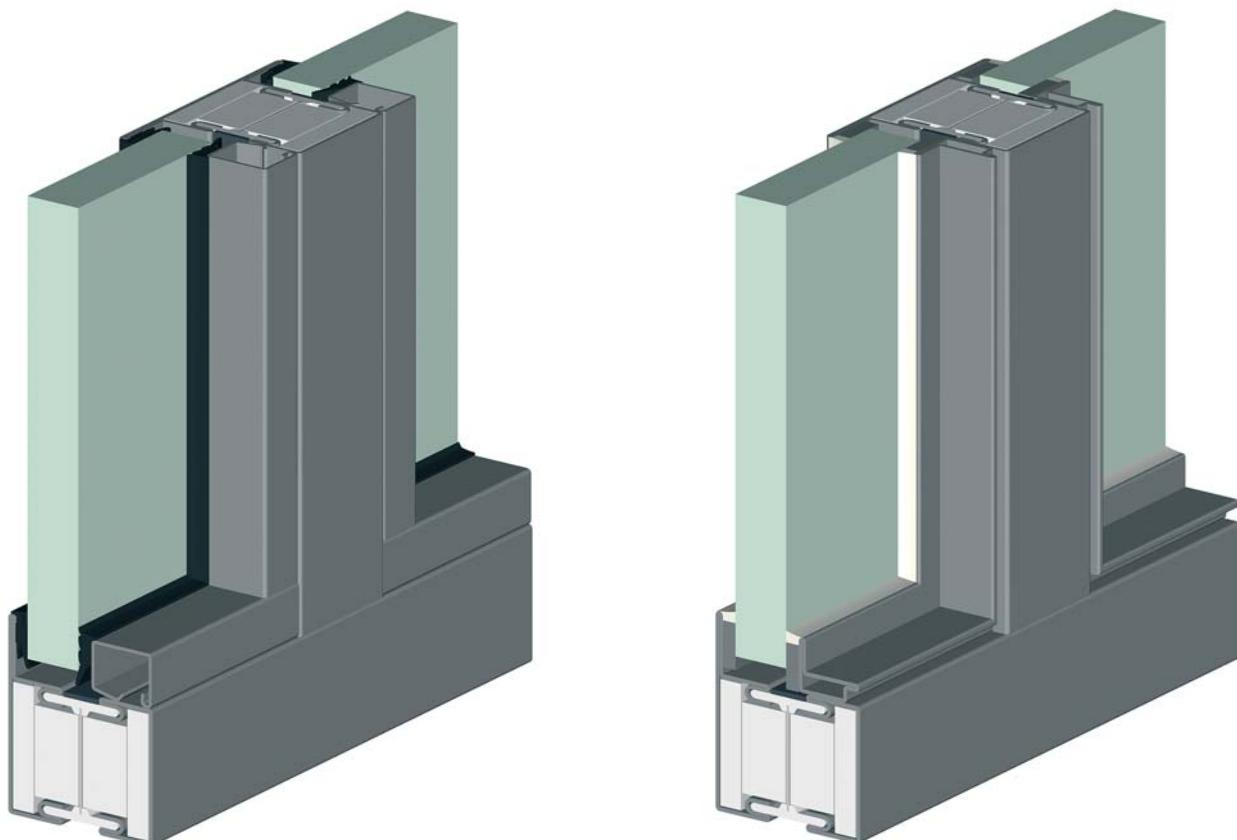

Diese Glasleisten in Stahl mit Schattenfuge unterstreichen den filigranen Charakter von Rahmen- und Türkonstruktionen aus den ohnehin schlanken Stahlprofilen noch zusätzlich. Erhältlich in den Breiten 20, 25 und 30 mm können sie praktisch bei allen Jansen-Profil-systemen eingesetzt werden.

Parcloses en acier à contour angulaire

Ces parcloses en acier avec rainure négative soulignent la finesse des châssis et des structures de portes composés de profilés en acier eux-mêmes très élancés. Disponibles en largeur 20, 25 et 30 mm, elles peuvent être employées avec pratiquement tous les systèmes de profilés Jansen.

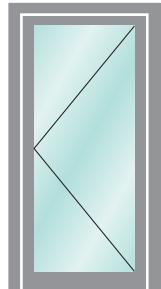

Angled glazing beads in steel

These steel glazing beads with shadow joints lend already slimline frame and door constructions with steel profiles an even more slender appearance. They can be used in widths of 20, 25 and 30 mm with almost all Jansen profile systems.

Handle without spindle, stainless steel

555.504 Edelstahl-Drücker-Lochteil
Poignée femelle en acier Inox
Handle without spindle, stainless steel

555.513 Edelstahl-Türknopf
Bouton de porte en acier Inox
Stainless steel door knob furniture

555.514 Edelstahl-Türknopf
Bouton de porte en acier Inox
Stainless steel door knob furniture

550.332 Edelstahl-Stossgriff
Poignée pousoir en Inox
Push-handle, Stainless steel

550.334 Edelstahl-Stossgriff
Poignée pousoir en Inox
Push-handle, Stainless steel

550.354 Zylinder-Rosette Edelstahl, ø 22
Rosace cylindre acier Inox, ø 22
Cylindre rosette stainless steel, ø 22

550.355 Zylinder-Rosette Edelstahl, ø 17
Rosace cylindre acier Inox, ø 17
Cylindre rosette stainless steel, ø 17

555.505 Zylinder-Rosette Edelstahl, ø 22
Rosace cylindre acier Inox, ø 22
Cylindre rosette stainless steel, ø 22

555.506 Zylinder-Rosette Edelstahl, ø 17
Rosace cylindre acier Inox, ø 17
Cylindre rosette stainless steel, ø 17

555.507 Blind-Rosette Edelstahl
Rosace aveugle acier Inox
Blind rosette stainless steel

 Janisol 3 EI60 (F60/T60)
 Janisol 3 EI60 (F60/T60)

550.229 Höhenverstellbares Anschweißband, Länge 180 mm
 Paumelle à souder, à hauteur réglable, longueur 180 mm
 Height-adjustable weld-on door hinge, length 180 mm

550.238 Anschweißband, 180 mm
 Paumelle à souder, 180 mm
 Weld-on door hinge, 180 mm

550.276 3D Anschweißband, Länge 180 mm
 3D Paumelle à souder, longueur 180 mm
 3D Weld-on door hinge, length 180 mm

550.250 Höhen- und seitenverstellbares Anschraubband, verzinkt
 Paumelle à visser, réglable verticalement et latéralement, zinguée
 Screw-on door hinge, adjustable vertically and laterally, galvanised

555.227 3D Anschweißband, Edelstahl 1.4305 geschliffen, ø 20 mm, Länge 180 mm
 Paumelle à souder 3D, acier inox 1.4305 polie, ø 20 mm, longueur 180 mm
 Weld-on door hinge 3D, stainless steel 1.4305 polished, ø 20 mm, length 180 mm

555.261 3D Anschweißband, Edelstahl 1.4435 geschliffen, ø 20 mm, Länge 180 mm
 Paumelle à souder 3D, acier inox 1.4435 polie, ø 20 mm, longueur 180 mm
 Weld-on door hinge 3D, stainless steel 1.4435 polished, ø 20 mm, length 180 mm

555.226 Höhenverstellbares Anschweißband, Edelstahl 1.4305 geschliffen, ø 20 mm, Länge 180 mm
 Paumelle à souder, à hauteur réglable, acier inox 1.4305 polie, ø 20 mm, longueur 180 mm
 Height-adjustable weld-on door hinge, stainless steel 1.4305 polished, ø 20 mm, length 180 mm

555.260 Höhenverstellbares Anschweißband, Edelstahl 1.4435 geschliffen, ø 20 mm, Länge 180 mm
 Paumelle à souder, à hauteur réglable, acier inox 1.4435 polie, ø 20 mm, longueur 180 mm
 Height-adjustable weld-on door hinge, stainless steel 1.4435 polished, ø 20 mm, length 180 mm

550.286 Höhen- und seitenverstellbares Anschraubband, Edelstahl
 Paumelle à visser, réglable verticalement et latéralement, Inox
 Screw-on door hinge, adjustable vertically and laterally, stainless steel

555.345 Edelstahl-Rollentürband
 Paumelle à galet en acier Inox
 Stainless steel barrel hinge
